It is recommended to receive 3-5 treatments (once every 1-4 weeks) and then one treatment every 1-3 months or as needed for maintenance. To maintain progress with anti-aging it is highly recommended to use the skin care at home daily.

Get the most out of your treatments by using ElaSpa Homecare products that are designed to work with the ElaProMed treatments for outstanding and long-lasting results.

elapromed's exclusive Para-Medical-Aesthetic devices are European designed and provide painless, non-invasive treatments utilizing our proprietary Transdermalporation technology, along with our exclusive natural active compounds.
